"KING

ON MANTELS IS

QUALITY"

# TO THE TRADE *GREETING*

IN PRESENTING TO YOU  
OUR SPECIAL WHOLESALE CAT-  
ALOGUE NO. 51, SHOWING A  
VERY SMALL PART OF OUR EN-  
TIRE LINE OF MANTELS, GRILLES,  
TILES AND FIREPLACE FIXTURES OF ALL  
KINDS. WE ASK CAREFUL CONSIDERATION  
OF THE FOLLOWING FACTS :

Last year we were successful in increasing the volume of our business by sharing with our customers a considerable saving which we were able to effect on account of purchasing materials in extra large quantities. This year the saving will be even greater, as we have just completed certain large season contracts on raw and finished materials that enable us to fix our prices at figures against which we challenge comparisons—quality of goods considered.

For sixteen years we have been before you with our catalogues and our letters soliciting your trade. During that time we have made many customers—many friends. Before this year closes we hope to have many more. If your name is not among the number, won't you let us add it now? We shall be very grateful for such favor and promise in all things a Square Deal.

## KING MANTEL COMPANY

ON THE KING'S HIGHWAY

KNOXVILLE, TENNESSEE

U. S. A.

## OUR TERMS

The prices named for the goods shown in this book are subject only to the trade discount which is named to you when catalogue is sent. After such discount is taken off, the prices are then strictly net. All goods are quoted f. o. b. (free on board) cars factory, Knoxville, Tenn., with the exception of brick Mantels, which are quoted f. o. b. brick plant (see page 52). In consideration of the narrow margin of profit on which these goods are sold, we require that a cash remittance, equal to not less than one-fourth of the amount of order, accompany the same as a guarantee of good faith, and balance may be paid on receipt of goods. As these are our terms to one and all, regardless of credit standing or commercial rating, we trust you will not ask us to deviate from the same. We pledge ourselves to refund without question any money paid in advance should the goods not prove all that we have represented them to be.

## INSTRUCTIONS CONCERNING PRICES

"MANTEL ONLY" means the finished Mantel—woodwork and mirror (if mirror is shown), but does not include any grate or tiles.

"MANTEL COMPLETE WITH OUTFIT No. 1" means the Mantel, 20-inch Appalachian coal burning Grate with Summer Front, plated finish and set of bright glaze enameled tiles (any color) for facing and hearth.

"MANTEL COMPLETE WITH OUTFIT No. 2" means the Mantel, 20-inch New Bismarck Mounted Grate with Summer Front, plated finish, and set of bright glaze enameled tiles (any color) for facing and hearth.

## EXTRA OUTFITS—IMPORTANT—READ CAREFULLY

If you want 24-inch Appalachian Grate instead of 20-inch Grate with Outfit No. 1, \$2.00 must be added to list price.

If you want 24-inch New Bismarck Mounted Grate with Outfit No. 2 instead of 20-inch Grate, \$4.00 must be added to list price.

REMEMBER you cannot use a 24-inch Grate with a Mantel that has opening only 36 inches wide. See catalogue description of Mantel for size of opening.

If you want a Gas Grate instead of a coal burning Grate, \$6.00 must be added to the list price for Outfit No. 1, and our 20-inch, 16 tile, asbestos back, multiple burner Grate, similar to that shown with No. 1043 Mantel on page 25, will be furnished complete with Summer Front and in best plated finish. In ordering these grates always state whether natural gas or artificial gas is to be used.

If you want "King-Satin" dull glaze tiles for facing and hearth instead of bright glaze enameled tiles, \$5.00 extra must be added to list price. All hearths are 60 x 21 inches, measured from face of chimney, not from face of Mantel. If you want hearth 60 x 24 inches, \$1.00 must be added to list price.

If you want Embossed tile facings for Mantels that have opening 36 x 36 inches or 42 x 39 inches (no other sizes can be furnished), the extra cost for such facings must be added as quoted on page 5.

Where color of tiles are not specified, we will understand that the selection is left to us, and will send those which we consider appropriate for the mantel.

## APPALACHIAN UNMOUNTED GRATE

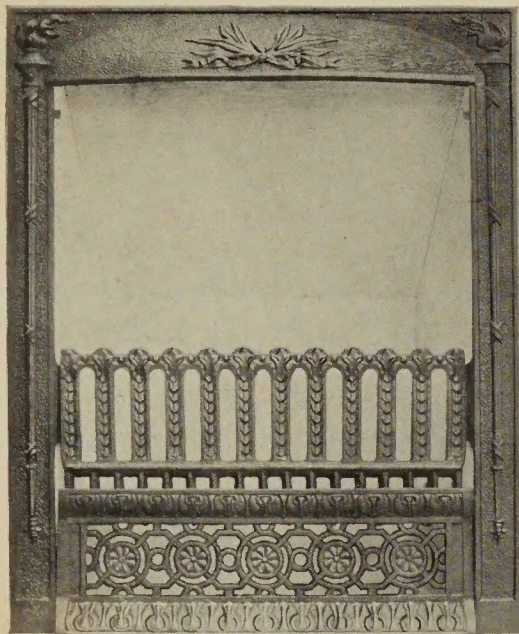

List Price, complete with Summer Front (plated finish), \$5.96

We show here an open view of our 20-inch Appalachian coal burning grate which met with such popular favor last year. The remarkably low price at which we offer this grate will come as a surprise to many, who will probably not understand why a grate of such excellent quality can be sold for so little money. In explanation wish to say that we contract for these goods in immense quantities, several car loads at a time, and thus obtain every advantage possible from quantity production. We challenge any concern to meet our prices on goods of equal quality.

The grate complete consists of frame, basket and ash screen of cast iron and Summer Front of heavy sheet steel. The Frame and Summer Front are in double electro-plated finish and may be had in either Oxidized Copper or Oxidized Brass. Basket of grate is 20 inches wide. The outside dimensions of grate frame are 24½ inches wide by 30¼ inches high.

Last year we had the Appalachian grate with but one style of Summer Front, but for this season have added several new and attractive patterns of Summer Fronts, a number of which are shown with mantels throughout catalogue. (See pages 12, 26, 33 and 47). Customers, if they prefer, may specify exact styles of Summer Fronts wanted; otherwise, we will understand that selection is left to us and will act accordingly.

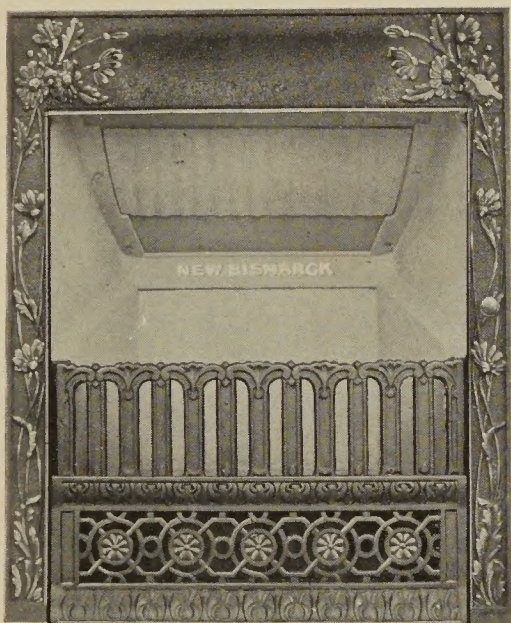

No fire brick or back tile are included in our quotation for the Appalachian grate, but simply the Frame, Summer Front, Basket and Ash Screen, making the complete grate as stated above.

**APPALACHIAN UNMOUNTED GRATE**  
Quoted with Outfit No. 1

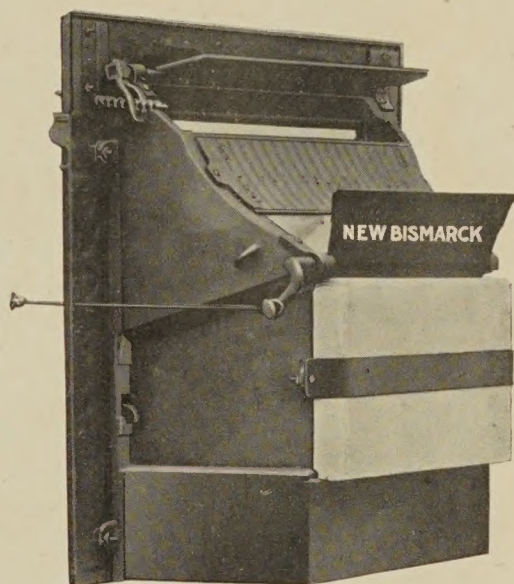

## THE NEW BISMARCK MOUNTED GRATE

List price, complete with Summer Front (plated finish) \$15.94

**NO. 1 NEW BISMARCK GRATE**  
Quoted with Outfit No. 2

Open view showing interior construction. For closed view showing style of Summer Front, see Mantel 1040 on page 15. Furnished in best plated finish, either Oxidized Copper or Oxidized Brass.

**NO. 1 NEW BISMARCK**

Rear view showing damper attachment. Heavy castings and strongest construction throughout.

Outside dimensions, 24½ inches wide, 30¼ inches high. Size of grate, 20 inches.

## FOR THE PRACTICAL BUYER

The New Bismarck Mounted Grate as shown on this page we consider the best grate for the price on the market today. While the cost, at first thought, may seem to be considerably more than that of an unmounted grate, as a matter of fact, it is practically nothing more when you consider the following:

First, you save the price of fire brick, which are never quoted with an unmounted grate. The New Bismarck, being built altogether in one piece, sets in the fireplace just like a stove and requires no fire brick.

Second, you don't have to pay for having the fireplace lined up with fire brick. Instead, simply make the opening to fit the New Bismarck Grate and wire the grate in place. It is built already set.

Third, you will have no experiments in adjusting the throat of the flue to throw the heat out into the room. The throat of every New Bismarck Grate is built at exactly the proper angle and, if your flue is right, will always draw and never smoke.

Fourth, an unmounted grate, which, as you know, consists of simply the frame, summer front, basket and ash screen, of course has no dampers. The New Bismarck has upper and lower dampers, identically the same as our famous King Grate, by means of which the fire can be easily regulated and controlled at all times. The basket also has dumping bottom.

The list price for New Bismarck Mounted Grate in 20-inch size as shown above, and complete with summer front, plated finish, is only \$15.94. In 24-inch size, as shown with No. 1044 mantel on page 16 (outside dimensions of frame 30½ x 30¼ inches) and complete with summer front, the list price is only \$4.00 more, or \$19.94, these prices, of course, subject to the usual catalog discount.

## WOOD MANTELS

The Mantels shown in this book are quoted in the stock sizes and finishes in which each particular design can be furnished. Remember, these goods are made and finished in immense quantities in order to reduce the cost of production, which enables us to quote the prices which we name to you. Odd sizes or special finishes cannot be furnished except at an advance in price; therefore, do not accept orders for such goods from your customers until you have first ascertained from us what the extra charges will be.

The stock shade of finish for oak Mantels is Golden Oak. The plain oak Mantels have extra gloss finish; the quartered oak Mantels, our best piano polish, which may be either dull rubbed or highly polished, as preferred. High polish always sent unless otherwise ordered. Mantels quoted in Maple Mahogany are made of maple, in imitation mahogany, with gloss finish. Those that are quoted in Real Mahogany are veneered with genuine mahogany selected for its rare beauty of grain and taking our famous "De Luxe Piano Polish Finish." A medium dark shade of mahogany is carried in stock for prompt shipment and is always sent unless otherwise ordered. Do not order Mantels in Mahogany that are quoted in oak only, as the same cannot be furnished. Mantels quoted in primed finish have 3 coats of white prime paint only and are **not** enameled. If white enamel finish is wanted write for prices, giving catalogue numbers of Mantels. Always state wood and finish wanted for each Mantel ordered.

## MANTEL TILES—BRIGHT GLAZE ENAMELS

In this catalogue we illustrate with the Mantels two kinds of tiles—the regular bright glaze enamels, with which all of our customers are doubtless familiar, and our new King-Satin or Velvet finish dull glazes. The regular bright glaze enamel tiles only are included in the complete prices quoted with Mantel under each illustration, and may be had in any color. The most popular solid color shades in these tiles are white, cream, canary, light blue, light green, rich brown, French gray, old rose, Nile green and golden olive. Among the prettiest shades in mottled tiles in the bright enamel glazes are delft blue, light green and white, tan and cream, sea foam and thistle, rich brown and green, light blue, cream and pink and light green, pink and white. We suggest that a general idea be given as to colors wanted, leaving the exact selection to us, and we will then use our best taste and judgment in sending tiles that are appropriate.

The most important thing that we ask the trade to consider is that the tiles we sell are first quality, manufactured to our order in the most refined shades and colors; in other words, "King Quality" tiles such as can fittingly be used with "King Quality" Mantels. Under no circumstances are these tiles to be confused with certain "seconds" and "factory culls" now on the market, which are offered under similar names at lower prices; neither will we attempt to compete in price with such tiles, which are as different in quality from those we offer as ordinary window glass is different from the best polished plate.

Quotations for any of our tiles by the square foot, in barrel lots or in car-load lots, will be named on application. Bright glaze enamel tiles are carried in size 6 x 1½ inches and will be so sent unless otherwise ordered.

## MANTEL TILES—SATIN FINISH

King-Satin is the name of a satin or velvet finish tile which we have in the most beautiful shades of green, brown, tan, Colonial ivory, etc. All of these tiles are in solid colors, satin finish tiles not being appropriate in the mottled shades. The regular price for dull or velvet finish tiles, equal in quality to King-Satin, has heretofore ranged from six to ten dollars list more on the set over the price of bright glaze enamels, depending on the quantity required. By purchasing in immense quantities, however, we have for this season reduced the price to such a point as to enable us to offer King-Satin tiles at an average list price of only \$5.00 more on the set than regular bright glaze enamels (see opposite page). To parties who have placed an order, samples of these tiles will be sent prepaid on request, for their selection and approval. Orders will be filled for tiles in sizes such as in our judgment are most appropriate for the Mantels with which they are to be used. Prices for Rookwood, Algerian, Peau-de-soie and other higher priced tile of this class will be quoted on application.

## EMBOSSSED TILE FACINGS

Where embossed tiles are preferred for Mantel facings instead of plain surface tiles, we will furnish the same (selection of color and design to be left to us) at following extra prices:

Where opening in Mantel is 36 inches wide by 36 inches high (see Mantel 1001, page 26), add to list price quoted for Mantel complete, \$4.00.

If the Mantel has opening 42 inches wide by 39 inches high (see Mantel 1005, page 36), \$7.00 extra must be added to list for embossed facing and \$3.00 extra for 20-inch Grand Knox Grate, or \$10.00 in all, as it will be necessary to have a grate with an extra wide frame, the Appalachian Grate in 20-inch size not being broad enough to fit these large facings.

Unless order specifically calls for embossed tiles for facings, plain tiles will be shipped and hearths will in every case be sent without borders.

## OUR CATALOGUES

In Addition to the Special Leader Catalogue No. 50,  
We Issue the Following:

"Correct Fireplaces"—80 pages, showing Mantels complete with proper fireplace fixtures, tiles, etc., just as they should be placed in the home.

Catalogue No. 42, a companion book to "Correct Fireplaces," with which is combined also "Evidence" catalogue and "Colonial Beauties"—80 pages, showing a general line of wood and tile Mantels set up complete as they should be placed in the home.

**LIST PRICES**

Mantel only.....	\$15.74
Mantel complete with outfit No. 1 (see page 2).....	33.30
Mantel complete with outfit No. 2 (see page 2).....	43.28

By primed finish on this handsome little Colonial Base we mean that three coats of white paint will be put on the woodwork, so that the same will be all ready for enameling. If white enamel finish is wanted, this will cost extra and price will be quoted on application.

No. 1036—WHITE WOOD ONLY, THREE COATS WHITE PRIME

Shipping weight, 130 pounds.

Height, 4 feet 4 inches. Width, 5 feet.

Opening in Mantel—Width, 42 inches; Height, 42 inches.

Tile Projection, 4 inches.

**LIST PRICES**

Mantel only.....	\$15.94
Mantel complete with outfit No. 1 (see page 2).....	34.30
Mantel complete with outfit No. 2 (see page 2).....	44.28

Tiles shown with this Mantel are King-Satin Nile green iridescent shade, and if taken instead of bright glaze enamels, \$5.00 must be added to list price (see pages 2 and 4). The reason that we do not quote the Mantel in white enamel is that such finish is very brittle and apt to get damaged in shipment. If white enamel finish is wanted, however, prices will be quoted on application.

**No. 1027—WHITE WOOD ONLY, THREE COATS WHITE PRIME**

Shipping weight, 150 pounds.

Height, 4 feet 4 inches. Width, 5 feet.

Opening in Mantel—Width, 42 inches; Height, 39 inches.

**LIST PRICES**

Mantel only.....	\$32.84
Mantel complete with outfit No. 1 (see page 2).....	51.20
Mantel complete with outfit No. 2 (see page 2).....	61.18

A Mantel that is admitted by all who have seen it to be the best value in its class for the entire season, and easily looks in price at least fifty per cent more than we ask. Notice handsome columns, which are 4½ inches in diameter. Regular bright glaze enamel tiles will always be sent with this, or any other Mantel in Catalogue No. 51, unless some other kind is specified. Kindly make note of this when ordering. Grate shown is No. 1, 20-inch New Bismarck.

**No. 1044—WHITE WOOD ONLY, THREE COATS WHITE PRIME**

**LIST PRICES**

Mantel only.....	\$15.62
Mantel complete with outfit No. 1 (see page 2).....	31.38
Mantel complete with outfit No. 2 (see page 2).....	41.36

Mantel No. 1117 can be had either with flat back 4 feet 6 inches wide, or with regular 4-inch profile, 5 feet wide. This is decidedly the best looking cheap Mantel that we know of on the market today, the design being neat and refined in appearance and the finish our Extra Gloss Golden Oak. It would be a bargain at 20% more than we ask. Mantel with profile will always be sent unless otherwise ordered.

# No. 1000—PLAIN OAK ONLY, EXTRA GLOSS FINISH

For the money asked there is nothing better on the market than this Mantel; in fact, it is a wonder at the price. When made in Oak the Mantel has finely figured Quartered Oak veneered columns with solid boxed top shelf, and the front of both shelves in Quartered Oak. Please take note that when Mantels are shipped two in a crate there is a saving of about 10% in weight. All shipping weights given in this book are for Mantels crated single.

A large wholesale dealer to whom we sell a great many goods asked that we furnish a long column Mantel with opening 42 inches wide by 39 inches high, the Mantel to be made flat so that it could be used with an open fireplace where parties did not want to use a grate. The Mantel above shown is the result of this request and is proving a splendid seller. Always specify on order whether wanted with profile or flat. Mantel will be sent **with profile** unless otherwise ordered.

Everyone likes a Mantel on this style. Such patterns have a distinctive air of dainty refinement impossible to obtain in the heavier designs. Of course, the Mantel isn't elaborately or expensively made—you couldn't expect it at the price—but the stock is of choice selected straight oak with quartered oak front of shelf, and the finish is our best Extra Gloss. The ornaments used on shelf of Mantel are not furnished by us, but were employed by the photographer simply to show depth of shelf.

This Mantel is made in Quartered Oak as shown, and in Real Mahogany, with opening 42 x 39 inches, finished Piano Polish. In Plain Oak the opening is 36 x 36 inches, finished Extra Gloss. The lines of mantel are graceful and correct, and we recommend it as a sensible pattern where no particular period or style of decoration is to be carried out. For this season the shelf is being made slightly heavier than illustration shows and carving is left off of frieze.

Some customers want Mantels with rounded shelf; others want them square. Some prefer columns running all the way up, while others will have no other way than with two sets of columns; that is, one pair below and another pair above lower shelf, the construction that is here shown. No. 1106 is made in Plain Oak, Extra Gloss finish, with opening 36 x 36 inches, or in Quartered Oak and Real Mahogany, Piano Polish finish, with opening 42 x 39 inches. Now made with slightly heavier shelf and without carving on frieze.

Grate shown is one of our latest and prettiest Appalachian patterns.

## TILE MANTELS

One of the greatest and most successful specialties of King Mantel Company is Tile Mantels. For work of this kind we have in our employ a number of skilled designers, who for years have devoted their time to the planning of Correct Fireplaces. Stock designs can be used in many cases, but in most instances the best results are obtained by special treatment, the same as an Architect or Decorator would give when planning work for a home.

When writing about Tile Mantels, the size of the fireplace should be given, the width of the chimney breast, and a pencil sketch sent, if possible, showing how far the chimney sets out from the wall. We should also know something about the style of the house and the character of the room in which the Mantel is to be placed. To parties who furnish this information, the services of our expert designers are free, and we will gladly furnish special sketches showing fireplaces gotten up according to the individual taste and requirements of the owner, in which will of course be embodied plans and suggestions from the designer.

As agents for the world-famous Rookwood Potteries, we have succeeded in creating a wide demand for Rookwood Tiles, sold in connection with King Mantels. By doing our own designing we are enabled to throw much individuality into the work and to give to each customer, where such services are desired, entirely original designs different from those sold to any other party. Rookwood Tiles shown in this Mantel are a beautiful umber brown, of which sample will be mailed on application. For other examples of Rookwood Mantels, see Catalog, "Correct Fireplaces", and the companion book, Catalog No. 42.

## RED BRICK MANTLES

The five designs of Brick Mantels shown in this book are only a part of our entire line and are made of red pressed brick only. Owing to the superior quality of the Pennsylvania clays, we have the brick for these Mantels manufactured to our order at a plant in Northern Pennsylvania, and while we at times can ship from our warehouse stock at Knoxville, all quotations are based strictly f. o. b. plant in Pennsylvania, and in no case will a freight allowance or equalization be made. Approximate shipping weight of each Mantel complete, packed in barrels and f. o. b. brick plant, is given under each illustration. Freight rates to any given point will be named on application.

## DOME DAMPERS

Dome Dampers are intended to be used in the throat of flues for large open fireplaces, principally with brick mantels. The illustration here will give some idea of the way these dampers are to be set. So popular have Dome Dampers become that we have an entirely separate catalog describing them and giving prices. To interested parties, who will give size of their fireplaces, we will gladly send this catalog on application.

## FIREPLACE FRAMES

With brick mantel No. 1081 on page 49 is shown a 2-inch wrought iron frame around the fireplace opening. The list price of this frame in either of the two stock sizes, which are 24½ inches wide by 30¼ inches high, and 30½ inches wide by 30¼ inches high, outside measure, is \$5.00. Frame can also be furnished in wrought brass, plain surface without the bolt heads, in either of the stock sizes mentioned above, for \$4.32 list. If frames are to be made in special size, \$2.00 must be added to list price for either wrought iron or brass. If summer front is wanted with frame, see catalogue "Correct Fireplaces" (page 78) or write for illustrations.

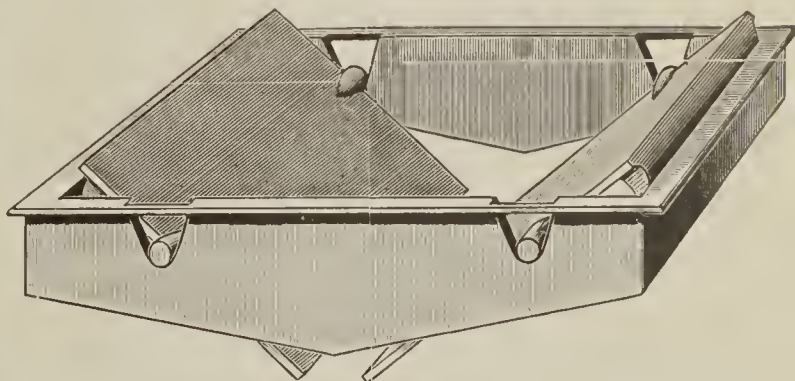

**NO. 112—ASH PIT DOOR—HINGED DOOR**

Where ash pits are used in the house, it is always essential to have a first-class ash-pit door, and as such we can recommend our No. 112 in every sense of the word. It is cast of good material, the door is well hinged, works without friction, and has a strong latch with which it may always be fastened securely when closed.

**NO. 110—AUTOMATIC ASH TRAP**

Size, 7 x 9 inches.

There are more expensive ash traps on the market than our No. 110 Automatic, but we know of no other that will give better satisfaction. It is very simple in its workings; when full of ashes the doors open and drop them into the ash chute and then close automatically. "You can't purchase anything more expensive and get your money's worth; you can not buy anything cheaper and accomplish your aim."

# FLOOR AND WALL TILE

Bath rooms, kitchens, vestibules, etc., are made more attractive, sanitary, and in every way more desirable by a liberal use of tiling on floors and walls. Tiles of this kind form one of our strongest specialties, and those that we handle may be depended on as being the very best. Lower prices may be quoted than those given by us, but the quality cannot be the same, as a comparison will easily prove.

While prices are given here by the foot in order that customers may see how inexpensively a room may be tiled, yet for accurate figures on tile jobs, it is best to submit specifications and measurements. In this connection we call attention to our special art department, in which is prepared water color drawings showing just how tile floors and walls will look when put in place. Send us plans or sketches with all measurements of the spaces you have to be tiled, giving an idea of the colors wanted, and suitable drawings will be submitted without charge, together with lowest estimate for materials required.

## SPECIAL INSTRUCTIONS

When figuring tile wainscotings always take into consideration the height, which at prices quoted must not be less than 3 feet. Diagram must be sent giving exact size and shape of room to be tiled, number of doors and windows, width of same and height of windows from floor.

Please take careful notice that our price for wall tiles calls not only for cap and base, but for angles as well, which includes corners and stop ends for window jambs **without extra charge**; also that these tiles are firsts — not “factory seconds or culls.” No tile wainscoting can be properly put up without cap and base, therefore we quote only with these included. Tiles for window trim as shown with wall tile arrangement No. 500 are not necessary for a finished job, but will be quoted on application.

WALL TILE ARRANGEMENT NO. 500

Showing 6 x 2 sanitary cove base, plain turned cap and 6 x 2 body.

### LIST PRICES

White wall tiles as shown, including cap and base with necessary angles (window trim not included), per square foot.....	67c
Floor tiles, pattern as shown, 3/4 inch square Ceramic Mosaic in black and white, red and white or blue and white, as preferred, per square foot.....	49c

FLOOR AND WALL TILE

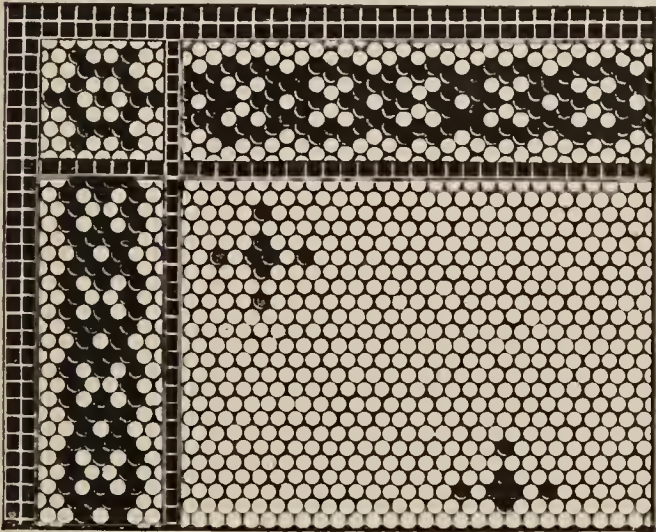

Body pure white or ivory glazed, as preferred, tiles 6x3 or 6x2, cap 6x2, turned pattern as shown, color as ordered. Base 6x6, turned sanitary pattern, color as ordered. List price, per square foot, 75c.

HOW TO FIGURE

Suppose you have a bath room to be tiled which measures 8 ft. by 10 ft. and you want the wainscoting 4 ft. 6 in. high, which is the height shown in this picture. The floor will, of course, contain 80 ft., which figure multiplied by the list price per sq. ft. for the floor tile will give cost of floor. For the wainscoting, if the height is to be 4 ft. 6 in. there will be for every running foot around the room 4½ square feet. As the list price per sq. ft. for wall tile arrangement No. 300 (if this pattern is selected) is 75c, the list price per lineal foot around the room, for wainscoting 4 ft. 6 in. high, will be \$3.37. As the tiles are 6 in. long, fractional inches cannot be counted, but if the room has a door 3 ft. 4 in. wide, you will count out 3 feet for the door, which will leave for an 8x10 room 33 running feet around the room. This at \$3.37 per running foot will make a total list price of \$111.21 for the amount of wall tile required, including the necessary cap and base to make the wainscoting 4 ft. 6 in. high, according to wall tile arrangement No. 300. If wainscoting is 4 ft. high the list price per lineal foot will be \$3.00, and so on according to illustration just given. All of these prices are, of course, subject to catalogue discount.

## WOOD GRILLES, COLONADES AND ARCHES

In this catalog we make no attempt to show a full line of Colonades and Grilles, but have a complete grille catalog, No. 17, which we will gladly mail to interested parties on application.

### SPECIAL INSTRUCTIONS

The prices given on this and preceding pages (except No. 924) are for grilles made of Oak, Pine, Birch or Cypress, in the white, hand smoothed, ready for finishing. If shellaced and varnished, ready to put in place, add 15%. If finish is desired to match color of trim already in place, sample will be required. Prices are quoted per lineal foot, and by measuring the width of opening, it is very easy to arrive at net cost of grille. For arch opening give exact width and height. Grille drop will be the same as noted with illustration, but can increase grille drop on any design at a slight advance in cost.

When in doubt as to kind of wood—take Oak. Oak is always appropriate anywhere. All grilles under 4 feet will be charged as if 4 feet long.

All grille work is special and must be made after order is received; therefore, we should be given at least two weeks time in which to have such work gotten out. Prices are quoted f. o. b. factory, subject to discount applying to this book.
